DHCP Template

DHCP Networking Support

This template is optimized for a single Class C subnet and one or two DHCP servers.

First Address	Last Address	Quantity	Purpose
1	10	10	Routers and Firewalls
11	20	10	Managed switches WAPs and Network Infrastructure
21	30	10	Servers
31	50	20	Reserved for IT and Testing
51	200	150	DHCP Assigned Workstations (divided equally between DHCP servers)
201	230	30	DHCP Reservations for Workstations (entered on all DHCP servers)
231	254	24	Printers and Network Scanners
