Products & Services

Whether your network is down or your Avid is crashing, we have technicians to help. We guarantee our drives to work with your system and we will do whatever we can to ensure that it does. Please call us and we can provide you with either telephone or on-site service, depending on your needs. We can also provide you with the cost at this time. Service contracts are available. Contact us for more information.

We specialize in complete Microsoft based network solutions for small to medium size businesses. We have cost effective Mail server, internet and FAX sharing tailored for companies with 5 - 50 workstations. Microsoft Certified Systems Engineers (MCSE's) are on staff that can help you determine your network needs and make recommendations on the products that will make your operations, efficient and productive.

Technique Microsystems Ltd. and Bell Canada have recently partnered to provide you with unmatched service for all your communication needs.
