WARNING: Office Activation May Cause Unintentional Data Loss!

I recently moved my hard drive from one system to another identically configured system and was forced to re-activate several software packages. No big deal really, since Microsoft has made their activation process quite easy.

[BlackBerry Enterprise Server Express now avaliable for FREE](#) [6]

BlackBerry® Enterprise Server Express enables businesses of any size to quickly and easily get started with the BlackBerry solution. It provides advanced BlackBerry smartphone features with no additional software or user license fees, and works with any Internet-enabled BlackBerry data plan or a BlackBerry enterprise data plan.

BlackBerry Enterprise Server Express offers IT control and security features you can trust even for employees that choose to bring their own BlackBerry® smartphone into your business.

[Terminal Servers Missing from RWW List in EBS 2008](#) [11]

Wed, 07/15/2009 - 14:18 ? Jens

Unlike Small Business Server (SBS) 2003, Essential Business Server (EBS) 2008 Remote Web Workplace

(RWW) does not automatically publish any links to your application sharing servers. Out of the box, the computer list only shows terminal servers (and other servers) for users that are members of the Domain Admins security group and the documentation does not disclose how to change this.

[Symantec Endpoint Client Installation Issue](#) [14]

Fri, 05/15/2009 - 08:37 ? Jens

If you're having trouble installing the Symantec Endpoint 11 client on a machine that was previously running Symantec AntiVirus server components you may have have to clean up the Windows Installer entries.

[VMware vs Endpoint](#) [19]

Mon, 04/06/2009 - 11:23 ? Jens

You may run into problems if you run the Symantec Endpoint 11 Manager on the same machines as VMware server. Luckily there's an easy workaround...

[Resolving PHP.INI Conflicts with SEP11](#) [22]

Thu, 03/26/2009 - 13:03 ? Jens

When installing Symantec Endpoint Protection Manager on a server already running PHP you may get the following error when you try to log in: ***Unable to communicate with the reporting component.*** This can be

caused by conflicting settings in your PHP.INI file. If your existing PHP installation uses a different version than the one supplied by SEP11 then you can remedy this by specifying a version specific PHP.INI in the registry.

Time is running out to take advantage of the Microsoft Big Easy Offer! [24]

Fri, 03/13/2009 - 04:17 ? Nickangel

It all ends March 31 2009.

If you haven't taken advantage of these generous rebates yet and are looking to get some Microsoft Software you should definitely check out this program:

http://www.microsoft.com/canada/smb/bigeasyadvanced/default.mspx [25]

For example, if you are looking at getting 5 copies of Office 2007 Small Business Edition you can get a rebate credit with us for $ 1050.00 !!!

A wide range of Microsoft desktop and server products are eligible. Complete details and a handy rebate calculator are at the link above. We can also help you process the paperwork. Ask us how!
